

ShwayComs Euro (SHWAY) Token Overview

Introduction

ShwayComs Euro (SHWAY) is a utility token supporting the licensing, verification, and transactional framework for ShwayComs intellectual property, including propulsion innovations and related agreements. It provides a transparent, immutable reference layer for professional interactions.

Purpose of the Token

SHWAY is used to acknowledge, record, and facilitate agreements related to IP licensing, prototyping engagements, research collaborations, and innovation-related services. It is not a speculative asset but a digital instrument for accountability and traceability.

Project Background

ShwayComs is an independent innovation initiative developing advanced propulsion concepts such as the Modulated Momentum Propeller (MMP), Centripetal Propeller, and other scalable systems for aerospace and orbital infrastructure.

Token Utility

Key utilities of the SHWAY token include:

- Agreement referencing
- Participation confirmation
- Audit trail maintenance
- Structured digital documentation for IP-related exchanges

Technical Details

Contract Address: 0xeCcc2Cd8c32eE3932983De76276905B2D2B12c1a

Token Standard: ERC-20

Token Name: ShwayComs Euro

Token Symbol: SHWAY

Token Supply: As defined in the deployed smart contract

ShwayComs Euro (SHWAY) Token Overview

Governance and Control

The SHWAY token is managed by ShwayComs and is used exclusively for professional and innovation-related interactions. It is not intended for public trading or speculative investment.

Legal and Compliance Notes

SHWAY is not an investment product. It does not represent equity, ownership, or any claim on profits. It is used solely as a digital reference instrument within the context of ShwayComs' intellectual property and innovation agreements.
